- Developed Student Merit Web-Based System using C# language
  - Developed Web-Based Health Consult System using Laravel Framework
  - Developed Disaster Management System using PHP
  - Developed design and low level functions using Bootstrap and .Net 4.8 framework for distribution management system (DMS)
  - Develop Learning Management System using Laravel Framework with Mantine UI and TypeScript

## **Skills**

---

### **Software and Technologies**

Sitecore, Azure Data Factory, Laravel, Mantine UI, Bootstrap

### **Programming Languages**

ASP.NET, .NET Core, C#, VB.NET, PHP, HTML5, C, C++, JavaScript, Typescript, NextJS, Angular

### **Databases**

MsSQL, SQL, MySQL, Firebase Database

### **Hardware Integration**

Arduino Uno, RFID, Fingerprint Sensor

### **Information Security**

Encryption, Security Policies, Security Standards, Cryptanalysis, Steganography, Digital Watermarking, Digital Forensic

### **Soft Skills**

Communication, Teamwork, Adaptable, Problem Solving, Leadership

## **Certificates**

---

### **Sitecore® Experience Solution 9 Developer Certification**

Passed the certification exam on hypothetical question as a developer working with Sitecore.

### **AWS Technical Professional**

### **AWS Partner: AWS Cloud Practitioner Essentials (Classroom)**
